3. Do not handle any part of the charger or WINDUP unit with wet hands.
4. Do not short terminals of batteries (such as by inserting batteries backwards or carrying in pockets).
5. Contact the 2XL Corporation Helpline when a service or repair is required. Do not disassemble the WINDUP unit as incorrect reassembly may result in an electric shock or fire.
6. Keep hair, loose clothing, fingers, and all parts of the body away from openings and moving parts. Do not point the wand at your eyes or ears or put in your mouth.
7. Do not put any foreign objects into openings. Doing so could result in damage to the WINDUP unit or reduced performance.
8. Use only with WINDUP recommended accessories and replacement parts.
9. To prevent unintended WINDUP material advancement, be careful to keep your hands and fingers away from the wipe advancement trigger button until you are ready to begin using the WINDUP unit, especially when picking up or carrying the unit.
10. Do not use a battery pack or WINDUP unit that is damaged or modified. Damaged or modified batteries may exhibit unpredictable behavior resulting in potential risk of injury. Do not expose battery pack or Windup unit to fire or excessive temperatures. Exposure to fire or temperatures above 140°F (60°C) may cause batteries to explode.
11. Follow all charging instructions and do not charge the battery pack or the unit outside of the temperature range specified in the instructions. Charging improperly or at temperatures outside of the specified range may damage the battery and increase the risk of fire. To ensure maximum battery life, 2XL Corporation recommends the following:
 - When not in use the WINDUP unit should be stored at room temperature. Recommended range: 64°F (18°C) to 82°F (28°C).

- The ambient temperature range for operation and charging should be 50°F (10°C) to 86°F (30°C).
12. FIRE WARNING - Do not place the WINDUP unit on or near a cooker or any other hot surface and do not incinerate this unit even if it is severely damaged. The battery might catch fire or explode.
 13. FIRE WARNING - Use and replace only with a WINDUP branded lithium battery pack. Replace entire battery pack. This reduces the chance for battery leakage conditions.
 12. When replacing batteries, follow product manual.
 13. Batteries may explode or leak and cause burn injury, if disposed of in fire, mixed with a different battery type, inserted backwards, or disassembled.
 14. Batteries may leak if depleted or not used for a long period of time. To protect you and the WINDUP unit, please remove batteries in a timely manner and avoid skin contact while handling leaking batteries. If a battery leaks, wipe unit clean with a damp cloth and wash hands. If any material gets into the eyes, flush eye immediately for 15 minutes with water if irritation persists contact a physician at once.
 15. This is not a toy. Keep batteries and the WINDUP unit out of reach of children and pets.
 16. Remove batteries before storing your WINDUP unit for long periods of time.
 17. Dispose of batteries according to national or local regulations.
 18. When spray or material advancement reduces, recharge batteries promptly.
 - **DO NOT** use on wood or tile floors that are highly worn, unfinished, or have a wax or oil finish. If you are not sure what type of wood or tile floors you have, look in the FAQ section for a quick way to test, or call your flooring manufacturer or retailer.
 14. Do not apply any fragrance or scented products to the material or cleaning solution as the fragrance may damage flooring surfaces.
 - DO NOT place hands in cartridge housing. Sharp or pinching hazard.
 - DO NOT use wipe roll materials other than the ones provided by or approved by 2XL Corporation. Other types of wipe roll materials may damage your floor and void your warranty.
 - DO NOT try to disassemble the WINDUP unit as any attempt to do so may severely damage the connections and permanently damage or destroy the unit.
 - DO NOT dispose of WINDUP material in the toilet.
 - DO NOT mix multiple cleaning solutions together. Doing this could cancel out the effectiveness of one or both cleaners. Additionally, mixing chemicals could result in noxious and potentially dangerous fumes.
 - DO NOT immerse in water or liquid.
 - Refill the solution bottle slowly and carefully to avoid spilling solution or overfilling the bottle which could result in solution on skin or excess solution on surfaces.
