

STEP INTO A NEW AGE OF CLEAN WITH WINDUP

Powerful Products That Keep Your Business Safe and Clean

GO BEYOND

From the super absorbent material roll to the “ergo” handle, we’ve engineered every inch of this dynamic unit; creating a bold new design that cleans beyond the average and takes you into the future of clean.

FASTER, EASIER, INCREDIBLY EFFICIENT

> SKIP THE SINK

Windup has a large, refillable tank that can be used with any floor care solution. Advance the microfiber roll to have a fresh surface at the touch of a button. Tackle any cleaning job large or small - you'll never make a trip to the slop sink again.

> STOP LUGGING AROUND SLOPPY BUCKETS

Toss the messy bucket and gallons of cleaner. Use Windup - it's all built in. Grab the Windup and start cleaning, and don't stop until the job is done.

> QUICK & EASY

Experience huge time savings with the Windup. When you no longer have to fill buckets, wring out mops, change cleaning pads, dispense cleaner, etc. the job of cleaning a floor takes a fraction of the time it used to.

> SAY GOODBYE TO FOOTPRINTS

Snow, sleet and rain wreak havoc on floors with dirty, salty footprints. Just grab the windup and quickly clean up entryways and heavy foot traffic areas in a breeze.

CAUTION: CLEAN FLOOR!

WINDUP ALLOWS YOU TO COVER MORE FLOOR SPACE, AT A FRACTION OF THE COST OF USING DISPOSABLE CLEANING PADS.

With a simple touch of a button, advance the roll for a new cleaning surface and be assured you will use every inch of our micro fiber material rather than throwing away partially dirty pads. That means, you do not have to push or smear dirt around your floor to try and maximize disposable pad surfaces.

WINDUP REFILL

SINGLE ROLL | 2XL701 | 3 PACK | 2XL703

GET WOUND UP ABOUT WINDUP!
